A BUG-TASTIC ACTIVITY TRAIL

Lloyd is the star of a show called Lloyd of the Flies. His family has booked a stay at a luxury bug hotel but Lloyd has lost the map, he was the last one who had it apparently! He's also managed to misplace his family and friends. Follow the trail to help Lloyd round everyone up and find the bug hotel, and as you go, find out more about bugs with fun facts from the Royal Entomological Society.

It is estimated there are some ten quintillion insects alive at any time. But forget about them, this is about me! Lloyd. I'm a fly! Can you find my friends and family? I'll help. A bit.

**LLOYD**

Lloyd B Fly is a young fly who's always getting in sticky situations. He likes food and LOVES comics. He is really scared of being eaten and hates being wrong.

**SPECIES: HOUSEFLY**

**FACT OR FICTION?**

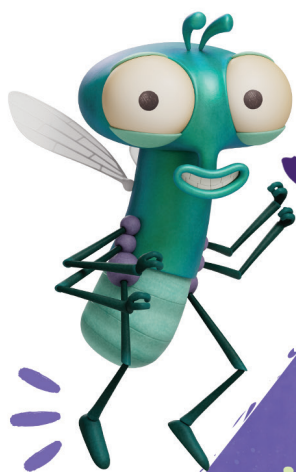

SCAN THE QR CODES TO GET THE ANSWERS TO THE INSECT QUESTIONS THAT HAVE BEEN REALLY BUGGING YOU.

**BUG LIST**

TICK IF YOU CAN SEE ANY FLIES.

First I need  
to find my best  
friend Abacus.  
Can you see him?  
He's a woodlouse,  
if that helps.

MAGGOT COUNTER

## ABACUS

2

Abacus is Lloyd's  
best friend.  
He's a gentle  
soul and a bit of  
a worrier. He is  
easily startled –  
often snapping  
into a ball  
for protection.

SPECIES: PILL WOODLOUSE

## FACT OR FICTION?

LLOYD AND ABACUS ONCE  
ENCOUNTERED A BIRD WHICH  
GOBBLED UP ABACUS. DON'T  
WORRY, HE SURVIVED,  
BUT DO BIRDS REALLY EAT  
BUGS?

SCAN TO FIND OUT!

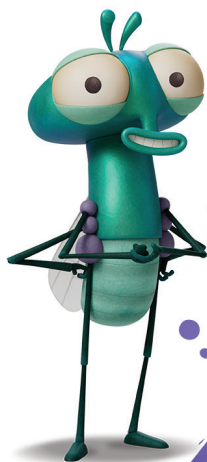

## BUG LIST

TICK IF YOU CAN SEE  
ANY WOODLICE.

Next we need to find Cornea. She's a butterfly and loves cooking so she will probably be flapping about collecting ingredients somewhere.

## FACTOR OR FICTION?

LLOYD AND ABACUS ONCE GOT SUCKED UP BY A VACUUM CLEANER AND TRAPPED IN THE DUST CHAMBER. CORNEA HAD TO HELP THEM FIND A WAY OUT. BUT CAN A BUG REALLY SURVIVE BEING SUCKED UP BY A VACUUM CLEANER?

SCAN TO FIND OUT!

# CORNEA

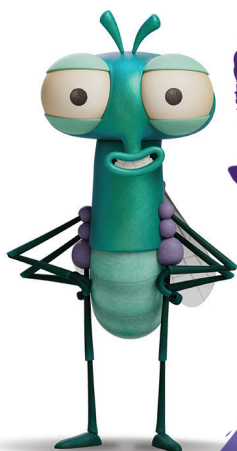

Cornea is a bit of an oddball who's taken a liking to Lloyd and his friends.

SPECIES: CLOUDED YELLOW BUTTERFLY

## BUG LIST

TICK IF YOU CAN SEE ANY BUTTERFLIES.

We should find my little sister PB next, preferably before we find my parents so I look like the responsible big brother that I am!

≡PB≡

4

PB is Lloyd's little sister. She loves to tease and irritate Lloyd and get involved in whatever he's doing, whether he likes it or not!

**SPECIES: HOUSEFLY**

## FACT OR FICTION?

WHEN PB INVITES HER NEW FRIEND JULIE THE SPIDER FOR DINNER, LLOYD IS CONVINCED THEY'LL ALL GET EATEN. PB SAYS SPIDERS CAN LAST FOR MONTHS WITHOUT FOOD. BUT IS THIS FACT OR FICTION?

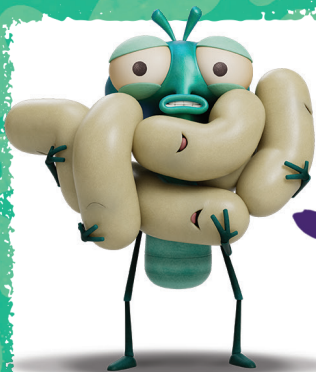

SCAN TO FIND OUT!

MAGGOT COUNTER

Now to find the rest of the family. Mum, Dad, and my maggot siblings! There are 224 of them and you can tell which are ours by the smell. Follow your nose and listen for farts!

## MALCOLM & GENA

Malcolm and Gena are Lloyd's mum and dad. Gena is an authority figure and is active and social. Malcolm loves nice food, comfy seats and a good crossword.

**SPECIES: HOUSEFLY**

## THE MAGGOTS

The maggots are Lloyd's un-pupated younger siblings. They spend a lot of time wriggling around, giggling, burping and farting.

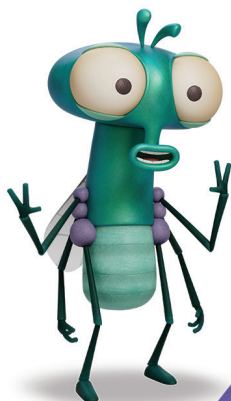

**SPECIES: FLY LARVAE**

## FACT OR FICTION?

ONE TIME LLOYD HAS TO BABYSIT HIS 224 MAGGOT BROTHERS AND SISTERS IN LLOYD OF THE FLIES.  
BUT DO MAGGOTS ACTUALLY SLEEP?

SCAN TO FIND OUT!

My arch-rival Berry must be around here somewhere. I suppose we should find him but I'd rather not... He's very annoying.

## FACT OR FICTION?

WHEN LLOYD, ABACUS AND BERRY EXPLORE THE WONDERS OF THE FRIDGE LOOKING FOR MOUTH-WATERING DELICACIES, THEY FIND THEMSELVES SLOWING DOWN. BUT IS THIS FACT OR FICTION? DO FLIES REALLY SLOW DOWN IN THE COLD?

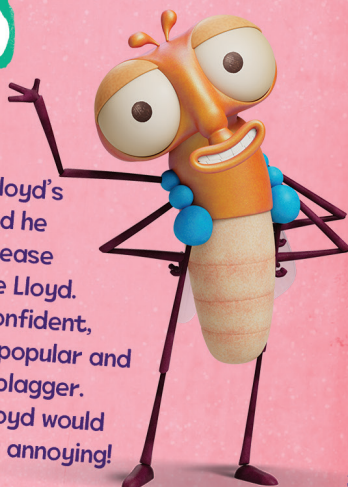

SCAN TO FIND OUT!

# BERRY

6

Berry is Lloyd's enemy and he loves to tease an irritate Lloyd. Berry is confident, charming, popular and a bit of a blagger. He is, as Lloyd would put it, very annoying!

SPECIES: FRUIT FLY

Now let's see if we can find Julie. She's a spider but don't worry, she won't eat me we're good friends. Hopefully she won't eat you either!

## JULIE THE SPIDER

7

Julie wouldn't hurt a fly. Well... mostly. She'll never eat a friend. And fortunately for Lloyd, Julie considers him a friend.

**SPECIES: SPIDER**

## FACT OR FICTION?

WHILE HUNTING FOR HIS LOST COMIC, LLOYD FINDS A SPIDER'S LEG. HE IS CONVINCED THE SPIDER WILL GROW A NEW LEG IF THEY NEED IT. BUT CAN A SPIDER REALLY GROW A NEW LEG?

SCAN TO FIND OUT!

We just need to find

best friend.

YARD

9

Yard is a regular at the Pancake  
Diner behind the cooker, and even has  
a dish named after her: The Big Bee  
Bum Pancake Crumb.

SPECIES: BUMBLEBEE

## FACT OR FICTION?

WHEN LLOYD VOLUNTEERS TO WORK IN  
THE ANT COLONY TO PROVE HE IS HARD  
WORKING, QUEEN LIBBY THREATENS TO  
EXPEL HIM FOR NOT PULLING HIS WEIGHT.

BUT DO ANTS REALLY GET EXPELLED  
FROM THEIR COLONY FOR NOT WORKING  
HARD ENOUGH?

SCAN TO FIND OUT!

### BUG LIST

TICK IF YOU  
CAN SEE  
ANY BEES.

## FACT OR FICTION?

QUEEN BUMBLEBEES HIBERNATE IN WINTER.  
MOST INSECTS DON'T LIKE THE COLD EITHER,  
SO WHEN LLOYD DISCOVERS A FLY TRAPPED  
AN ICE CUBE HE TRIES TO RESCUE HIM.  
BUT COULD A FLY REALLY SURVIVE BEING  
FROZEN?

SCAN TO FIND OUT!

Brilliant, we've found everyone!  
Now we just need to find Roger to  
check in. He's the moth I get my  
comics from, but he also runs the  
bug hotel. And great news,  
tardigrades are catered for, so I  
can bring Nutbun!

MAGGOT COUNTER

## FACTOR FICTION?

LLOYD'S TINY TARDIGRADE FRIEND  
NUTBUM APPEARED TO BE DEAD,  
THEN WAS ALIVE AGAIN. BUT CAN  
BUGS REALLY COME BACK FROM  
THE DEAD?

ANY CATERpillars.
